Reporting and Reimbursement Descriptions

As with the application process, the online grants management system is used for project reporting and is aimed at minimizing the grantee's time burden. Grantees must submit their reports through the online grant management portal at <http://www.afdo.org/msgiants>. Milk and Shellfish training grantees must complete at least one Training Grant Reimbursement Request and a separate Training Grant Final Report. Milk and Shellfish equipment grantees must complete one combined Equipment Reimbursement Request and Integrated Final Report.

TRAINING GRANT REIMBURSEMENT REQUESTS

A Training Grant Reimbursement Request is required whenever you are seeking reimbursement for a completed course (or courses). Because your award is intended to meet all your training needs, more than one Training Grant Reimbursement Request may be submitted during the grant period for the reimbursement of a completed course. Once a request is submitted, the grants administrator will add another Reimbursement Request to the grants management system based on your agency's response to the related question in the "Required Verification" section. A separate reimbursement check will be mailed after approval of each request. In addition, a Training Grant Final Report is required to close out your agency's training award and is due no later than 45 days after the end of the project period listed in your application.

TRAINING GRANT FINAL REPORT

A Training Grant Final Report is required to close out your agency's award after all training funded by your award from the Milk and Shellfish Grant Program is complete, and the required Training Grant Reimbursement Request(s) has/have been submitted and approved. The Training Grant Final Report is due no later than 45 days after the end of the project period listed in your application. Once all of your Training Grant Reimbursement Requests have been submitted (you may have one or several, depending on the details of your award) and approved, a Training Grant Final Report will appear in the "Reports Due" section of your grant management account, with rollup information populated from your original application and from your cumulative (one or more) Training Grant Reimbursement Requests. *Note: Before the final reimbursement is made for a training, the Training Grant Final Report must be submitted and approved.*

EQUIPMENT GRANT REIMBURSEMENT REQUEST AND INTEGRATED FINAL REPORT

An Equipment Grant Reimbursement Request and Integrated Final Report is required at the conclusion of the grant once all equipment has been purchased. Only one reimbursement request will be permitted for equipment grants unless circumstances warrant an exception, and advance approval is obtained through the Association of Food and Drug Officials' Milk and Shellfish Grant Program Management Team. A reimbursement check will be mailed after approval of the Equipment Reimbursement Request and Integrated Final Report.

Login and Grantee Portal Overview

Many grantees find it helpful to first view the reporting portal while reviewing the following instructions. We also recommend gathering the required information and documentation before entering it into the reporting portal. This can prevent the loss of work-time caused by Internet connection issues. The portal works best with the most updated version of Google Chrome.

LOGIN INSTRUCTIONS

Log in to the grants management system at <http://www.afdo.org/msgnants> using the login and password you received during the application process. If you cannot find the username and/or password, please visit the system's password assistance web page at https://msgnants.fluxx.io/forgot_password. Alternatively, contact us at (717) 814-9873 or msgnants@afdo.org.
