Food Safety Jurisdictions and Enforcement Authorities

Agency jurisdiction and responsibility for regulating food safety varies from state to state. While an agency may have jurisdiction over a facility or commodity, not all agencies issue licenses or routinely inspect every facility or commodity type. All of the State agencies which have jurisdiction to regulate food safety within the state are listed in the tables below, with their jurisdiction over a particular facility type or commodity denoted by the word “Authority” or “Split Authority” in the row of the facility or commodity type within their column.
